

All In Order

The challenge is to make a set of 2 digit numbers in order from smallest to biggest. Roll your ten-sided dice and write the digit in one of the boxes in Round 1. Keep rolling, filling the boxes as you go whilst trying to keep the numbers in order. When you get to the end, check whether your numbers are in order with the smallest at the top. If not, try again on Round 2!
(Hint: There is a technique to make you more likely to succeed. Can you work out what it is?)

Round 1			Round 2	
Tens	Ones		Tens	Ones
<input type="text"/>	<input type="text"/>	<i>Smallest</i>	<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>		<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>		<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>		<input type="text"/>	<input type="text"/>
<input type="text"/>	<input type="text"/>	<i>Largest</i>	<input type="text"/>	<input type="text"/>

Challenge: To make the game more challenging, try adding a hundreds box to each number and playing again.
