

Missing Mystery

Lay out a set of single digit cards in order from 1 to 9. Ask the child to look away while you remove one of the cards and slide the remaining cards together so there are no gaps. Can the child work out which number is missing? If they get it correct, move up the ladder and repeat but with two cards missing. Keep moving up the ladder but if you make a mistake, you have to go back to the start! Can you be the ultimate detective and spot FIVE missing numbers?
