

HIGHER OR LOWER?

0	1	2	3	4	5	6	7	8	9	10
										

Before the game begins, cut out the special dice and stick it together. Each player must choose a coloured star to race to. Place a counter (or any object) on the number 5.

Take it in turns to roll the special dice and follow the instructions on it, moving the counter to the correct number. The first player to reach their end star is the winner!

Use the second special dice for more of a challenge (and a quicker game!).
